DEPARTMENT OF PHYSICS

May 4, 1928.

Mr. Frank J. Jutrash,
385 - 11th Ave.,
Milwaukee, Wis.

Dear OM,

If I remember rightly I promised to give the same little talk at the coming convention that I gave at the club on April 12th. I find now that it will be just about next to impossible for me to be in Milwaukee during the convention period, and I wish to be excused from the talk if that be at all possible. Inasmuch as the talk I was planning on giving was much the same as the one given at the club last month it will probably not be much of a loss. Also, I understand that Prof. Terry will be down there and I am sure that he will be able to say more of interest in five minutes than I could in an hour.

Am very sorry to have to do this om, but at present can see no way out of the difficulty. If it will be at all possible for me to do so I will be down for a portion of the doings, but I cannot even promise that I will be able to make that.

Well, best luck om, and hope the convention turns out to be all that you expect it will.

With best 73's

Burton F. Miller
Chief Engineer WHA.
